

CLOVECHOK, Susan

DIRECTOR AT LARGE - UNION OF BC MUNICIPALITIES

Why Susan

I will do what I have always done... work hard, act with integrity and make fact-based decisions. I am adaptable and able to focus on supporting the common good and that means that when I sit at the UBCM Executive Table I will consider the impact of decisions and actions on all the people of British Columbia and I will make sure that the issues and perspectives of communities within AKBLG are represented.

Experience

I have lived in Area F of the RD of East Kootenay for 13 years with my husband Doug and our menagerie of pets. Up until I was elected in 2018 I worked at the Columbia Valley Chamber of Commerce for 8 years where I supported the business community in the Columbia Valley through advocacy with all levels of government, educational opportunities and networking. In addition, I have worked in leadership positions for regional and national organizations, managed multi-million dollar budgets, and developed policies throughout my career in communities across Canada.

Having lived in both rural and urban communities throughout BC (Vancouver, Victoria, Mayne Island, Salt Spring Island, Tsawassen, New Westminster, Richmond, Horseshoe Bay and Fairmont Hot Springs) I will bring a balanced perspective of both urban and rural to the UBCM table.

I have experience serving on national boards and committees; I was appointed to the BC Rural Advisory Council and am proud to have contributed to the development of the Rural Dividend Fund. I served on the BC Chamber Executive Society's for 5 years and ascended to President, I also sat on the BC Chamber board for 2 years along with being on the Conference Board of Canada's Employability Skills Committee.

It is important that at UBCM we have a balanced representation from throughout the province and as one of two electoral area directors running for Director at Large it is critical that the subtle differences between Regional Districts and Municipalities be recognized at the provincial level I along with the Electoral Area Representative, Grace McGregor will make sure that the EA Directors' voices are heard. As a Director at Large I will work hard, listen, and ask questions so we can work together to make the province of British Columbia a better place for everyone to call home.

Please support my bid to become a UBCM Director at Large, I am up for the challenge and I am committed to serving you at UBCM with integrity and passion.

Please vote **Susan Clovechok**, at this year's UBCM Diversity by Design Conference
